

EMES Tekstil Ltd

Company Established in 1998

Recent reorganization has led to a renewed business and new factory involvements helped us through these rough times. As a factory with production and also performing as agents where necessary, we provide for decent costing, confidence and efficiencies in production and planning for our clients through our direct export and rep business. Our relationships with fabric makers and dye houses as well as accessory suppliers are extremely well developed allowing for speedy sourcing and matching demands for challenging costing requirements.

Not only does this allow us to keep costs manageable, it also makes possible organization and production of small scale orders as long as they meet fabric minimums.

The Reorganization;

Involved reforming the entity in three partners of differing backgrounds and strengths in direct customer business and production with clearly established responsibilities.

Having serviced a host of international clients including H&M, Esprit, GAP (& Banana Republic), Brandt, S. Oliver, TESCO and in the recent past have also produced for Marks & Spencer, Lauren Vidal, Next, Cecil, Alders, Wißmach, Daxon, Zagora, Gerry Weber, Karstadt Quelle (4 years), George (3.5 years), we are ready to serve you.

Required audits may already be or will be conducted for production and standards mandated for export to all respective clients in the above list through the authorized manufacturing venues.

Machine Park at Factories of EMES:

- Additional machine park readily available on demand
- (most recently) Own Factory in Bolu, OIZ (full CMT, 120 machines)

EMES Tekstil Ltd

printed. Production is primarily in-house.

2. **KNITTED APPAREL** : T-shirts, blouses, sweat shirts, joggings, pants, pyjamas, sportswear, underwear, socks and intimate apparel made from knitted fabrics in cotton, viscose, polyester, polyamide and blends with lycra in jerseys, pique, ribbed, baby rib, interlocks, brushed, double-faced and various qualities and treatments available. Production of knitwear is completely outsourced with partners in business for best quality/price.

Methodology:

Workflow charts, frequent updates on order status via e-mail and telephone by designated merchandisers, and custom-made Time and Action sheets are to deliver the most accurate product in a timely manner. You will note as you meet them, the three partners of EMES Tekstil are seasoned professionals with strong production, planning and representation backgrounds.

In sourcing our customers' demands, we give full service of in-house inspections in AQL standards desired and reporting at every phase of development and production:

- **AT DEVELOPMENT** : Sampling procedures, customer requests are carefully noted, confirmed with photos and desired requirements. The sample(s) produced are controlled for fabric quality, and measurements prior to submission. Social code of conduct and worker's rights are monitored according to social responsibilities, code of conduct enforced by the Ministry of Labor in Turkey (which pretty much satisfies BSCI and SA8000 standards).
- **BEFORE PRODUCTION** : We conduct inspection of raw materials for color match, (fabric) shrinkage, color fastness and (fabric) yarn quality. We work also with labs like ITS, Ekoteks, SBS and BVCPS where specifically requested. And dictate organic standards IVN and/or other requirements in raw materials use where requested. Also before cutting we record dye-party numbers with swatches to minimize color variations.
- **DURING PRODUCTION** : First inspection is of the production sample for stitch quality and size measures. Also through in-line controls, our teams identify problem issues, and quality details before they turn into packaged goods!
- **FINAL INSPECTION** : Before shipment, a closed box inspection by Acceptable Quality Level 2.5 or 4.0, depending on customer reqs. utilizing a single sampling plan, where the "normal" final inspection takes place for complete assurance on quality.
- **SHIPMENT** : Ensuring your forwarder has the necessary details and on time information, we check all paperwork and confirm accuracy based on inspection reports. When working with more than 1 manufacturer location per client order, we arrange with your forwarder to collect all bulk from one single location where all is pooled for delivery.
- **LABELING AND PACKING** : For exact labeling and packing the manufacturers are required to order with those makers authorized by the client or us. Approved labels, poly bags and boxes will be ordered and obtained timely by all manufacturers to ensure consistency in quality and accuracy.
- **REPORTS** : For all phases of production, we report to our customers and get each requested confirmation prior to proceeding with the next step. A custom-made time and action sheet for each of customer's procedures will be configured for remaining on track.

We supply you with competitive prices, reliable ex-factory dates and quality merchandise. For all your collection needs, sampling requirements and if you prefer, solely CMT manufacturing needs or other questions please contact us.

Through low maintenance/overhead costs, and prompt service standards by keeping a strong core team together and servicing orders of all sizes through a flexible organizational design, we will surely provide a custom fit service for your needs.

Warm Regards From All Of Us Here At **EMES TEKSTIL**
